

VHX-1019

Dakota Digital Universal VHX Instrument Installation

Your new VHX-1019 kit includes:

VHX Display

(4x) L-Brackets and Thumb Nuts

Universal Sender Pack

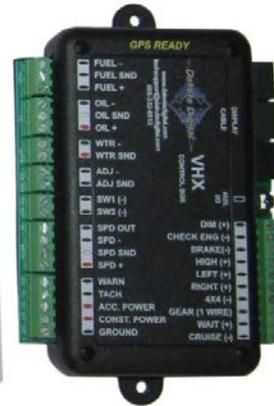

Switch Assembly

Installation Manual and Cutout Template

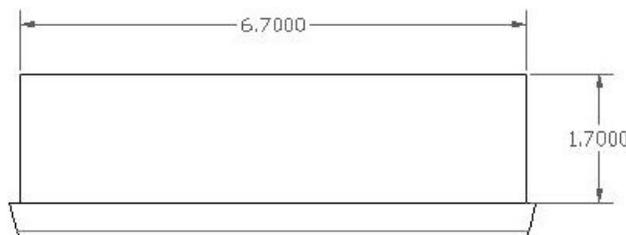

CAT5 Cable

Control Box

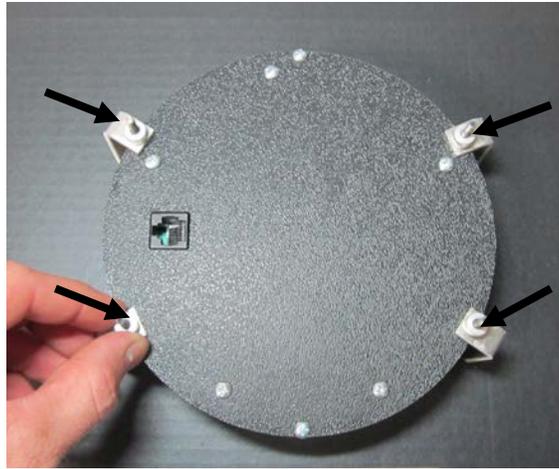

Installation

1. Use the provided template to mark out the 6 3/4" diameter opening needed to fit the VHX display. Ensure adequate clearance behind desired mounting location; the display requires approximately 2" of depth.

2. With the appropriate opening cut, carefully place the VHX display from the front side and attach the four (4) L-brackets to the back of the display using the provided thumb nuts.

3. Remove the protective film, and then attach the provided CAT5 Cable to the back of the VHX display. Carefully route the other end to the control box mounting location and refer to the main manual for wiring instructions.
