(2x) Mounting Brackets
(4x) Thumb Nuts

Control Box

Installation

1. For Factory dashes; remove the stock gauges from the dash. For custom applications; use the provided template for the appropriate cutout.

- Place the VHX display in the dash opening and secure using the supplied brackets and thumb screws.

- Connect the CAT5 cable to the VHX display and carefully route the other end to the control box mounting location.

- Refer to the main manual for wiring instructions to complete the VHX installation.
