

VHX-39C

Dakota Digital VHX Instrument Installation
For 1939 Chevrolet Car

Your new VHX-39C kit includes:

VHX Display

Universal Sender Pack

Switch Assembly

Installation Manuals

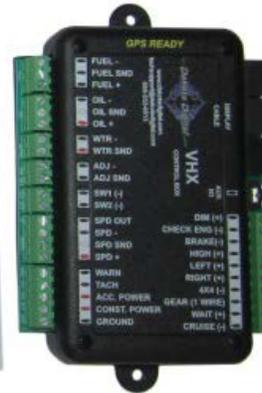

CAT5 Cable

(2x) Washers

Control Box

Installation

1. Remove the stock gauges from the dash and retain the hardware for reassembly.

2. The VHX system is a direct replacement of the original cluster, so use the two mounting tabs on the gauge to secure the VHX system to the dash using the provided washers and stock nuts.

3. Connect one end of the CAT5 cable to the back of the VHX gauge. Take care when routing the other of the CAT5 cable to the control box mounting location.

4. Refer to the main manual for wiring instructions to complete the VHX installation.
