

VHX-48F-PU

Dakota Digital VHX Instrument Installation
For 1948-50 Ford Pickup

Your new VHX-48F-PU kit includes:

VHX Display

Universal Sender Pack

Ford Speed Adapter

Switch Assembly

CAT5 Cable

Control Box

Installation

1. Remove the stock gauge cluster from the dash and retain the hardware for reassembly.

2. The VHX system is a direct replacement of the original cluster, so use the three mounting tabs to secure the VHX system to the dash using the stock hardware.

3. Connect the CAT5 cable to the back of the VHX system. Take care when routing the CAT5 cable to the control box mounting location.

4. Refer to the main manual for wiring instructions to complete the VHX installation.
