

VHX-51F-PU

Dakota Digital VHX Instrument Installation
For 1951-52 Ford Pickup

Your new VHX-51F-PU kit includes:

Universal Sender Pack

VHX Display

Ford Speed Adapter

Switch Assembly

(2) CAT5 Cables

Control Box

Installation

1. Remove the stock gauges from the dash and retain the hardware for reassembly.

- The VHX system is a direct replacement of the original cluster, so use the two mounting tabs on each gauge to secure the VHX system to the dash using the stock hardware.

- Connect one end of the two (2) CAT5 cables to the back of each VHX gauge. Take care when routing the other ends of the CAT5 cables to the control box mounting location.

- Refer to the main manual for wiring instructions to complete the VHX installation.
