For 1967 Chevrolet Impala and Caprice

Your new VHX-67C-IMP kit includes:

VHX Display

Universal Sender Pack

Switch Assembly

(2) 36" CAT5 Cable's

Clock Harness

Control Box

Installation

1. First, remove the stock gauge cluster from the dash. Retain the factory hardware for reassembly.

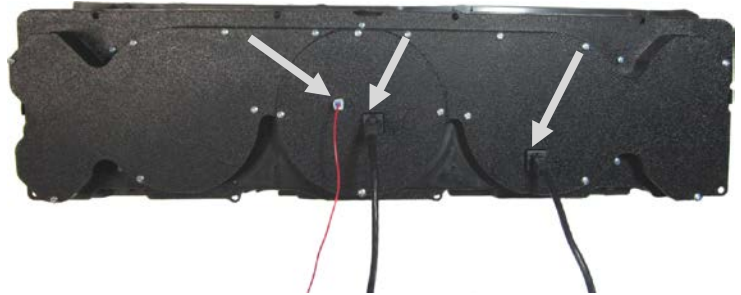

2. Remove the stock gauges from the bezel and retain the hardware for reassembly. You can also remove the factory clear lens on the front of the bezel or it can be left in place if desired.

3. Mount the VHX system to the stock bezel using the factory screws from the previous step.

4. Attach the provided CAT5 cables and the clock harness to the back of the VHX system and carefully route the open ends to the control box mounting location.

5. Re-install the gauge bezel using the factory hardware and refer to manual 650314 and 650462 for wiring instructions to complete the VHX installation.
