

VLC-58C-IMP

Dakota Digital VHX Clock Installation
For 1958 Chevrolet Impala

Your new VLC-58C-IMP kit includes:

VLC Clock

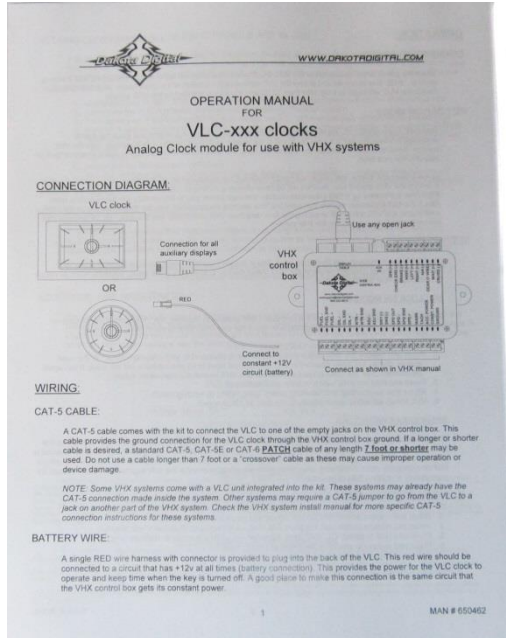

Power Harness

CAT5 Cable

Installation Manuals

(4X) Thumb Nuts

(4X) 5/8" Length Flathead Screws

Installation

1. Disconnect and remove the original clock by removing the dash trim and the four nuts on the backside.

Supplied Screws

2. With the original clock removed, carefully maneuver the VLC clock in place and secure the gauge with the supplied hardware.

3. With the VLC clock in place, re-install the dash trim by slipping the tabs on the left side of the trim around the edge of VHX bezel and then using the stock hardware to secure the trim to the dash all while being careful not to scratch the VHX bezel.

4. Connect the CAT5 cable and the power harness to the clock. Route the other ends to the VHX control box. Refer to enclosed clock operating manual for these connections and setup.
