

130070

Dakota Digital 1954-2003 Small Block Chevy Oil Pressure Adapter

1/8"-27 NPTF ports

1/8" NPTF

Begin installation by wrapping adapter threads with quality thread tape. Then, thread oil pressure adapter into the oil pressure port on the rear of the engine near the firewall. Tighten adapter using a 3/4" open end wrench. Ensure the oil pressure port is facing the direction you want the sensor to be mounted.

45 degree sensor option

To mount sensor at 90 degrees

1. Remove hex plug using 3/16" hex wrench.

2. Tighten hex plug using 3/16" hex wrench into top port. Torque to 5ft-lb.

90 degree sensor option

Wrap oil pressure sensor threads with quality thread tape. Thread pressure sensor into adapter. Tighten sensor into adapter.
