Installation Manuals

HDX Display

Main Harness

Control Box

Installation

1. First, remove the stock gauge cluster from the dash. There are four mounting tabs on both the top and on the bottom of the bezel that secure the assembly to the dash. Next, remove and retain the seven screws holding the metal gauge housing to the bezel.

- Secure the HDX system to the bare bezel using the seven screws removed in Step One.

- Connect the provided Main Harness and the Buzzer (optional for audio feedback) to the back of the HDX system.

- Re-install the cluster into the vehicle using the factory hardware and refer to the main manual for wiring instructions to complete the HDX installation.
