

RTX-53F-PU

Dakota Digital RTX Instrument Installation
For 1953-55 Ford Pickup

Your new RTX-53F-PU kit includes:

RTX Display

Universal Sender Pack

Buzzer

Installation Manuals

Main Harness

Switch assembly

Control Box

Mounting screws

Ford Speed Adapter

Installation

1. Remove the stock gauges from the dash by removing the four screws securing the gauges to the dash.

2. From the rear of the dash; insert the RTX system into the opening and securely mount using the four 10-24 screws provided. The two (2) counter sunk screws are for the upper two locations and the two (2) pan heads are for the lower two locations.

3. Connect the provided harness and the buzzer (optional for audio feedback) to the back of the RTX system. Route the other end of the main harness to the control box.

4. Refer to the main manual for wiring instructions to complete the RTX installation.
