

VLC-16-1

Dakota Digital Universal VHX Clock Installation

Your new VLC-16-1 kit includes:

VLC Clock

Installation Manuals and Cutout Template

(2) Long L-Bracket

CAT5 Cable

(2) Thumb Nuts

Power Harness

Installation

1. Using the provided template or a hole saw, make an opening measuring 2.75" diameter for the clock in your desired mounting location. Ensure at least 3" of depth behind the gauge opening for adequate clearance.

2. Insert the VLC gauge into the opening, making sure it is aligned properly. Then, secure the gauge with the supplied L-brackets and thumb nuts.

3. Connect the CAT5 cable and the power harness to the back of the clock.

4. Refer to the enclosed clock operating manual for these connections and clock setup.
